External link

## *How can I add a Fotolia specific content folders URL?*

Fotolia specific content folders

Use an exclusive URL to re-direct your customers to Fotolia content folders

1. Enter Content and select Fotolia Collection folder

2. Click on the wheel and enter Settings

3. This URL will re-direct you into your designer with your Fotolia folders content

How can I set a Language as a parameter on URL?

Set a Language as a parameter on URL

Customize your External Link setting your language

1. Click on **settings**

2. Enter **Web Integration** settings

3. Click on **Go to developers page**

4. **Customize your external link with your language:** in the External Link section, you will find 22 different languages to customize your link

The External Link

This is the simplest way you can let other people start projects with you. There is an URL that directly opens projects in your web site. This is a very simple, straight forward way to start making projects. You can share with them a link via er the design, when they are ready they will contact you for payment, decide on the substrate, etc. By using this link your customers don't need to contact you to create projects for them, they just do it by themselves.

The link will have the form:

https://designer.hpwallart.com/<url_identifier>?external_link=true

You can optionally augment this link with the following parameters,

| Parameter name	Key	Value
Customer Name	customer_name	Varchar. This will be used to pre-populate the initate dialog in Designer.
Customer Email	customer_email	Varchar. This will be used to pre-populate the initate dialog in Designer.
Project Name	project_name	Varchar. This will be used to pre-populate the initate dialog in Designer.
Designer Language	language	ar | ca | da | de | el | en | es | fi | fr | he | it | ja | nb | nl | pl | pt | ru | sv | th | tr | zh-Hans | zh-Hant. This will be used to launch designer in the desired language. ar = Arabic ca = Catalan da = Danish de = German el = Greek en = English es = Spanish fi = Finnish fr = French he = Hebrew it = Italian ja = Japanese nb = Norwegian nl = Dutch pl = Polish pt = Portuguese ru = Russian sv = Swedish th = Thai tr = Turkish zh-Hans = Chinese (Simplified) zh-Hant = Chinese (Traditional)

How can I predefine a product size on URL?
Predefine product size on URL

Set your fixed product applications sizes on your External Link

1. Click on **settings**

2. Enter **Web Integration** settings
3. Click on **Go to developers page**

4. **Customize your external link with your language:** in the External Link section, you will be able to set specific measurements for your applications offer

The External Link

This is the simplest way you can let other people start projects with you. There is an URL that directly opens projects in your web site. This is a very simple, straight forward way to start making projects. You can share with them a link via the design, when they are ready they will contact you for payment, decide on the substrate, etc. By using this link your customers don't need to contact you to create projects for them, they just do it by themselves.

The link will have the form:

`https://designer.hpwallart.com/<url_identifier>?external_link=true`

You can optionally augment this link with the following parameters,

Parameter name	Key	Value
Customer Name	customer_name	Varchar. This will be used to pre-populate the initate dialog in Designer.
Customer Email	customer_email	Varchar. This will be used to pre-populate the initate dialog in Designer.
Project Name	project_name	Varchar. This will be used to pre-populate the initate dialog in Designer.
Designer Language	language	ar | ca | da | de | el | en | es | fi | fr | he | it | ja | nb | nl | pl | pt | ru | sv | th | tr | zh-Hans | zh-Hant. This will be used to launch designer in the desired language. ar = Arabic ca = Catalan da = Danish de = German el = Greek en = English es = Spanish fi = Finnish fr = French he = Hebrew it = Italian ja = Japanese nb = Norwegian nl = Dutch pl = Polish pt = Portuguese ru = Russian sv = Swedish th = Thai tr = Turkish zh-Hans = Chinese (Simplified) zh-Hant = Chinese (Traditional)
Product SKU	sku	This will set the default product sku when the designer is launched. WA_WC | WA_WP | WA_CA | WA_WD WA_WC = Wall Covering WA_WP = Wall Poster WA_CA = Canvas WA_WD = Wall Decal
Product Size	size	WxH where width and height are specified in inches/centimeters depending on your 'Unit system for length' setting. This can ONLY be optionally used in conjunction with sku. The values provided will be validated against the sku's limitations and will be defaulted if found to be invalid.
