# HP WallArt Solution 3.0

## CALDERA WIDE FORMAT IMAGING  JDF Workflow Integration

February 2015

HP WallArt Team

# Enabling JDF in HP WallArt Basic Concept

# JDF/RIP's Automation

## More efficiency on your workflow

### How can it accelerate the process?

**1** Sends ready-to-print files directly from your web2print

**2** RIP automatically downloads your files, without manual interaction

## AUTOMATIC PROCESS

**HP WallArt Web2Print** → **File Ripping** → **Printing**

# Enabling JDF in HP WallArt

# Enter Workflow Integration settings

# Set up HP WallArt in Caldera RIP

**Only for Caldera Version 10**

**4** Bridge Module Configuration set ups

Disable "Hold incoming jobs" if
you want to open the images
in Caldera automatically. With
this option set on you will
have to use the "Open in RIP"
button in JobTracker

**Bridge Module Configuration** ✕

| JDF Link URL | : | https://jdf.hpwallart.com/xxx |
| User | : | caldera |

☑ Hold incoming jobs

Fileman parameters...

☑ Job types

☐ WallCovering      ☐ WallPoster
☐ Canvas            ☐ WallDecal

☑ Use authentication

User login : UserName

Password : Password

HP WallArt          OK    Cancel
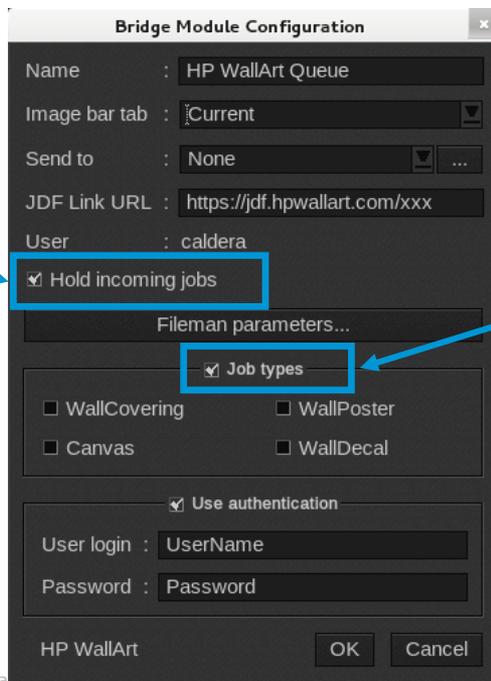

When "Job types" is
disabled, no filtering is
applied, which will load jobs
of all types

# Set up HP WallArt in Caldera RIP

**Only for Caldera Version 10**

**5** Confirm with OK button

# Set up HP WallArt in Caldera RIP

**Only for Caldera Version 10**

**6** Activate the module with Apply button

It should read "Active" for the HP WallArt module. Other messages are "Authentication denied" or "JDF Link problem". If any of those appear, check the configuration (repeat the steps above)
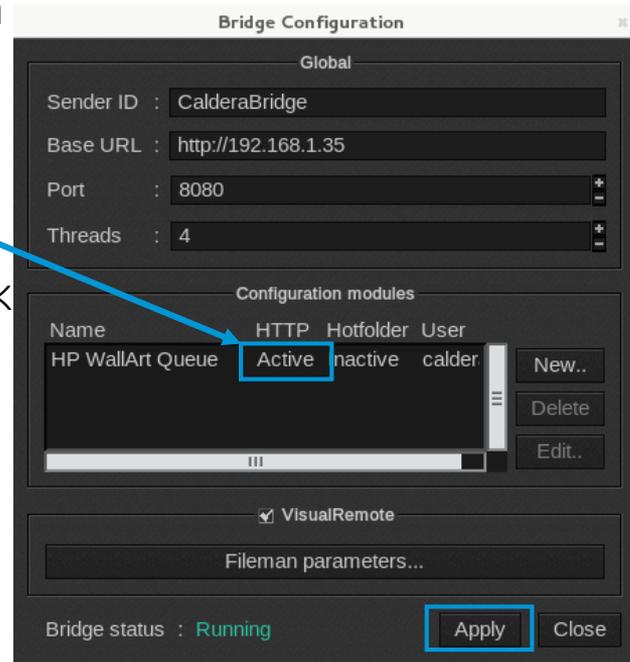

# Set up HP WallArt in Caldera RIP

**Only for Caldera Version 10**

**7** Restart Caldera V10 interface. There should be an icon with the same name as the new configuration module. That opens the Job Tracker
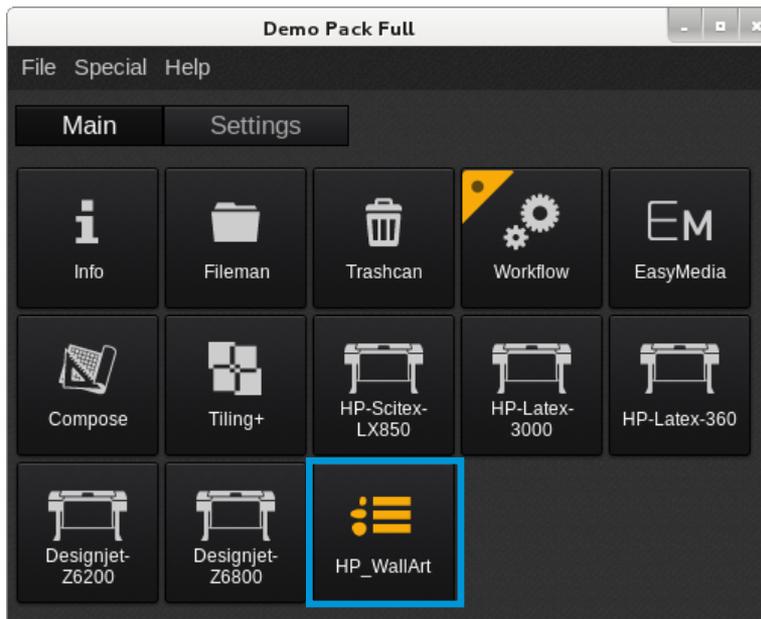

# Set up HP WallArt in Caldera RIP

## Only for Caldera Version 10

**8** In Job Tracker, hit the refresh icon on top-right corner. That will retrieve any waiting HP WallArt job.
