

# HP WallArt Solution 3.0

February 2015 HP WallArt Team

# Enabling JDF in HP WallArt Basic Concept

### **JDF/RIP's Automation**

#### More efficiency on your workflow

#### How can it accelerate the process?

Sends ready-to-print files directly from your web2print

RIP automatically downloads your files, without manual interaction

# Enabling JDF in HP WallArt How it works

### **Enter Workflow Integration settings**

Company Settings Production

Customization Web

Web Integration Workflow Integration

**JDF** Connection

https://jdf.hpwallart.com/digitalprinting

Enter this URL in order to configure HP WallArt RIP settings

Enable JDF connectivity 🕕

**Note:** URL customized for each HP WallArt's user (*e.g. digitalprinting*) *hhtps://jdf.hpwallart.com/xxx* 

Company Settings Production

Customization We

Web Integration Workflow Integration

JDF Connection

https://jdf.hpwallart.com/digitalprinting

Needs to be checked in order for the JDF Automation to be actived and all the options will appear. You need to click on "Enable JDF connectivity" to be able to download JDF ticket and have the RIP status, both in the dashboard

Company Settings Customization Workflow Integration Production Web Integration JDF Connection https://jdf.hpwallart.com/digitalprinting Enable JDF connectivity 🕕  $\sim$ Enable JDF authentication () Use single page PDF in JDF job ticket () <..... This option refers to have the JDF job ticket with a PDF file with

no trim lines or tiling
